
Pacific Northwest National Laboratory

Operated by Battelle for the
U.S. Department of Energy

September 5, 2003

Mr. Larry Peck
Deputy Director
Washington Department of Fish and Wildlife
600 Capitol Way North
Olympia, WA 98501-1091

Dear Mr. Peck:

I was so pleased you could attend the dedication of the Skookumchuck Culvert Test Bed in August. Thank you for helping us celebrate completion of a unique facility that will help determine what new and culvert retrofit designs will pass juvenile salmonids.

I thought you might enjoy seeing the enclosed issue of *Breakthroughs*, our corporate magazine, which contains a Skookumchuck Culvert Test Bed story on page 9. Many of the other stories in this issue tell about research taking place at the Marine Sciences Laboratory where staff members who manage the culvert project work.

Again, thank you for celebrating with us. If I can answer further questions about the Pacific Northwest National Laboratory, please give me a call.

Yours truly,

Kathryn Lang
Communications Manager
Environmental Technology Directorate
